

As of May 2019

PSA Data Archive (PSADA) is a web-based cataloging system which serves as a gateway to microdata and documentations of PSA's surveys, censuses and administrative-based statistics. The PSADA includes information on the scope and coverage, sampling procedure and design, technical notes on data collection and processing, metadata and details about the data items collected from the various surveys and censuses of the PSA. The PSADA can be accessed at: bit.ly/PSADDataArchive.
