\* NFA data P/ Preliminary.  Excludes corn stock held by commercial livestock and poultry producers and corn mixed in feed stock.

- Total rice stock as of February 1, 2008 was estimated at **1.83** million metric tons. It was lower by **13.4** percent from previous month's stock and **0.4** percent less than the stock last year. The current stock is enough to last for **57** days.
- Compared to previous month's stock position, household and NFA stock holdings dropped by **16.8** and **22.0** percent, respectively. On the other hand, stock in commercial warehouses went up by **5.1** percent.
- Compared to 2007 level, this year's household sector and NFA holdings were lower by 1.7 and 24.7 percent, respectively. In contrast, stock in commercial warehouses went up by 30.7 percent. Imported rice accounted for 89.0 percent of NFA stocks.
- Around 62 percent of the total rice stock inventory were with the households, while 23 percent and 15 percent were with the commercial warehouses and NFA depositories, respectively.
- The February 1, 2008 total corn stock inventory stood at **196** thousand metric tons, higher than the preceding month's level by **13.7** percent and against last year's record by **6.8** percent.
- Stock levels in households and commercial warehouses went up respectively by **2.0** percent to **15.4** percent compared to their month and year ago levels.
- NFA reported no corn stock for the period.
