SPECIAL RELEASE

CARABAO SITUATION REPORT April-June 2018

Date of Release: <u>20 August 2018</u> Reference No. 2018 - <u>216</u>

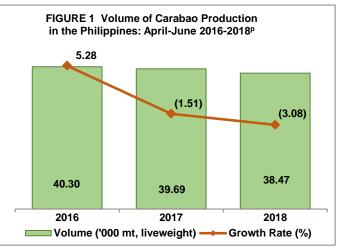

Carabao production for the second quarter of 2018 was estimated at 38.47 thousand metric tons. This was 3.08 percent lower than the 2017 gross output. (Table 1)

Eight (8) regions reported decreases in carabao production relative to their respective levels in 2017. These regions contributed 60.95 percent to the national output. The highest reduction in terms of level of production was reported in Western Visayas due to lower liveweight of carabaos disposed for slaughter.

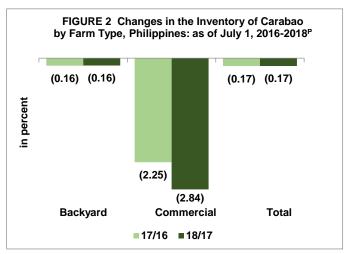

As of July 1, 2018, the total carabao inventory was 0.17 percent lower than previous year's headcount of 2.88 million heads. (Table 2)

Likewise, the inventory in both backyard and commercial farms decreased by 0.16 percent and 2.84 percent, respectively.

The top (5) regions with highest inventory of carabao were Bicol Region, Western Visayas, Cagayan Valley, Central Luzon and Eastern Visayas. These regions shared 44.87 percent to the country's total carabao inventory.

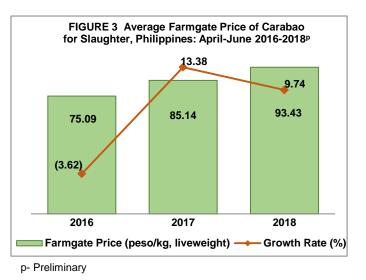

p- Preliminary

p- Preliminary

The average farmgate price of carabao for slaughter from April to June 2018 was quoted at PhP 93.43 per kilogram, liveweight, an increase of 9.74 percent from 2017 price level of PhP 85.14 per kilogram, liveweight. (Table 3)

TECHNICAL NOTES

This Carabao Situation Report presents the carabao industry in terms of volume of production, inventory by farm type, and average farmgate price. The report was prepared to serve as ready reference for our various clients and stakeholders in the agriculture sector. It is released quarterly in January, May, August and November every year.

Concepts and Definitions

Volume of Production refers to the volume of locally-raised animals disposed for slaughter which include animals shipped-out for slaughter. This is expressed in metric ton, liveweight.

Inventory refers to the actual number of domesticated animals present in the farm as of a specific reference date.

Farmgate Price refers to the price received by farmers, livestock and poultry raisers for the sale of their produce at the first point of sale net of freight.

KNAILAN Abanto

ROSALINDA P. BAUTISTA (Director II) Officer-in-Charge Sectoral Statistics Office
