SELECTED STATISTICS on AGRICULTURE

May 1994

BUREAU OF AGRICULTURAL STATISTICS

ACKNOWLEDGEMENT

We wish to extend our thanks to the Agricultural Credit and Policy Council (ACPC), Asian Development Bank (ADB), Bureau of Animal Industry (BAI), Bureau of Fisheries and Aquatic Resources (BFAR), Central Bank (CB), Department of Budget and Management (DBM), Development Bank of the Philippines (DBP), Food and Agriculture Organization (FAO), Fertilizer and Pesticide Authority (FPA), National Food Authority (NFA), National Irrigation Authority (NIA), National Statistics Coordination Board (NSCB), National Statistics Office (NSO), Philippine National Bank (PNB) and Sugar Regulatory Administration (SRA) for sharing with us their data and other information.

We wish also to thank the Philippine Statistical Association (PSA) for printing this Handbook through a grant from the United States Agency for International Development (USAID).

FOREWORD

This marks the 7th issue of the Handbook on Selected Statistics on Agriculture. Some of the data in the previous issues were updated to reflect latest available information. This issue includes 1991 data on costs and returns data of palay and corn and revisions on the base year of nominal and real wage indexes from 1985 to 1988 and on the broiler inventory. The outdated farm family income data is replaced by the cost and returns data. The wage index is rebased to be consistent with the other indexes. On the other hand, the broiler inventory has been revised upward considering the results of the 1991 CAF and a broiler model based on importation of grandparent and parent stocks.

While we continue to improve the statistics contained in the Handbook, we would welcome comments and suggestions from the readers and users to be incorporated in the next issue.

ROMEO S. RECIDÉ
Director

EXPLANATORY NOTES

1. Unless otherwise indicated, year refers to calendar year.
2. Figures were, as a rule, copied from source publications to the extent possible. However, there were cases that some were rounded or combined.
3. Figures were rounded off and may not add up to the totals.
4. The following are symbols used in the tables:

- - -	Data not available
O	Less than half of the unit employed
R	Revised
P	Preliminary
MT	Metric ton
HA	Hectare
KG	Kilogram
GNP	Gross National Product
GVA	Gross Value Added
SSLA	Stock Savings and Loan Association
BOP	Balance of Payments

5. Sources of data are the following:

ACPC	-	Agricultural Credit and Policy Council
ADB	-	Asian Development Bank
BAI	-	Bureau of Animal Industry
BAS	-	Bureau of Agricultural Statistics
BFAR	-	Bureau of Fisheries and Aquatic Resources
CB	-	Central Bank
DBM	-	Department of Budget and Management
DBP	-	Development Bank of the Philippines
FAO	-	Food and Agriculture Organization
FPA	-	Fertilizer and Pesticide Authority
NFA	-	National Food Authority
NIA	-	National Irrigation Administration
NSCB	-	National Statistics Coordination Board
NSO	-	National Statistics Office
SRA	-	Sugar Regulatory Administration

TECHNICAL NOTES

Other Crops

The series on crops other than palay and corn presents the revised figures on twenty major crops. There have been changes in absolute levels and trends as a result of data validation undertaken by BAS.

Sugarcane -the sugarcane data from the Sugar Regulatory Administration (SRA) which are released on a September-August cropyear were adopted and adjusted on a calendar year basis. Also, new SRA data for calendar years 1988 to 1990 were adopted in this handbook.

Coconut - the statistics in this series considers the trend of the series from the Philippine Coconut Authority (PCA) and attainable coconut yields. The BAS figures include both manufactured and unmanufactured nut production, while the PCA concept of coconut production relates more to manufactured coconut (copra dessicated, manufactured oil, copra cake & meal, etc.)

Coffee, Cacao, Banana, Pineapple, Mango, Citrus - the revised statistics result from the corrections made on the absolute levels and trends based on production indicators such as NSO data, exports, per capita consumption and yield per bearing tree.

Fibercrops - the statistics in this series have disaggregated the major fibercrop, abaca, and the other fibercrops. The new series reflects the adjustments based on the statistics from the Fiber Industry Development Authority (FIDA).

The new series for other crops contain also different crop classifications such as other rootcrops, tubers, spices, etc. in conformity with the standard crop classification being prepared by BAS.

Livestock and Poultry

The present statistical series reflects the adoption of the national income account concept of production which includes animals slaughtered and change in stocks.

Dairy Production - the statistics were revised based on the series from the Department of Agriculture (DA), Philippine Dairy Corporation (PDC), Bureau of Animal Industry (BAI), Dairy Training and Research Institute (DTRI) and production statistics of 12 commercial farms for 1985 to 1990.

Milk Production - the present series is in milk equivalent instead of milk solids.
