Selected Statistics on Agriculture is a publication of the Philippine Statistics Authority (PSA). The PSA reserves exclusive right to reproduce this publication in whatever form. Should any portion of this publication be included in a report/article, the title of the publication and the PSA should be cited as the source of the data. The PSA will not be responsible for any information derived from the processing of data contained in this publication.

FOREWORD

The 2020 Selected Statistics on Agriculture (SSA) is the 31st issue of the annual statistical report published by the Philippine Statistics Authority (PSA). It provides a five-year data series (2015-2019) for selected macroeconomic indicators and agricultural production by subsector and by commodity, including statistics on production costs and returns, price and trade, and supply utilization accounts. Through this report, the PSA consolidates statistics and indicators that can respond to the needs of our data users.

The 31st issue of SSA can be downloaded from www.psa.gov.ph and is available in printed copies.

As the PSA strives to improve its statistical products and services, we welcome comments and feedback on the contents and format of this publication.

EXPLANATORY NOTES

1. Sources of basic data are indicated at the bottom of each table.
2. Unless otherwise indicated, year refers to calendar year.
3. As a rule, figures from source publications were copied to the extent possible. In some instances, however, figures were rounded-off or combined.
4. Figures may not add up to the totals due to rounding off.
5. Yield per hectare is derived prior to rounding-off the data on production and hectareage.
6. The following symbols and abbreviations are used in the tables:

---	<i>Data not yet available</i>
-	<i>None</i>
R	<i>Revised</i>
P	<i>Preliminary</i>
mt	<i>Metric Ton</i>
ha(s)	<i>Hectare/s</i>
kg	<i>Kilogram</i>
GNI	<i>Gross National Income</i>
GVA	<i>Gross Value Added</i>
GDP	<i>Gross Domestic Product</i>
FOB	<i>Freight on Board</i>
CIF	<i>Cost Insurance Freight</i>
NFD	<i>Net Food Disposable</i>
CPH	<i>Census of Population and Housing</i>

AN OVERVIEW OF THE PHILIPPINE AGRICULTURAL ECONOMY

Economic Performance. In 2019, the country's Gross Domestic Product (GDP) grew by 6.0 percent. The Gross Value Added (GVA) in Agriculture, Forestry and Fishing (AFF), which accounted for 9.2 percent of the GDP, registered a 1.2 percent growth during the year.

Production Performance in Agriculture. The gross output in agriculture inched up by 0.3 percent in 2019. Crop production decreased by 1.0 percent. Production of palay was down by 1.3 percent while corn recorded a 2.7 percent increment in output. Banana production contracted by 2.1 percent. Coconut had a 0.3 percent output gain. Increases in production were exhibited in the other crops such as mango, pineapple, calamansi, rubber, sweet potato, eggplant, onion, tobacco, abaca, tomato, ampalaya, cabbage, and cacao. Meanwhile, output decreases were reported in sugarcane, cassava, coffee, potato, and mongo.

Livestock registered a 1.0 percent decline in production in 2019. Except for dairy, all livestock components exhibited output losses. Hog production dropped by 1.0 percent. Production of poultry was up by 5.9 percent. Chicken registered an output growth of 4.9 percent while duck had 2.3 percent reduction in production. Uptrend continued in chicken egg and duck egg production.

Production in the fisheries grew by 1.5 percent in 2019. Among the major species, output increases were noted in roundscad, skipjack, yellowfin tuna, milkfish, tilapia and tiger prawn.

Prices. On the average, the price received by farmers for producing palay in 2019 was down by 19.3 percent. Farmgate prices of white and yellow corngrain were lower by 10.8 percent and 6.7 percent, respectively. Reductions in farmgate prices were also recorded in coconut, coffee, and mango. Except for hog, all livestock commodities had increases in farmgate prices. Hog was priced lower by 8.6 percent. For poultry, farmgate prices improved by 3.8 percent for chicken and by 13.4 percent for duck.

Meanwhile, the prices paid by consumers for food and non-alcoholic beverages went up by an average of 2.1 percent.

Agricultural Trade. In 2019, the country's earnings from agricultural exports, which accounted for 9.4 percent of the total exports, increased by 9.1 percent. The top agricultural export products were fresh banana, coconut oil, and pineapple and products with a combined share of 52.5 percent in the total value of agricultural exports. The major export destinations for fresh banana were still Japan and China, and for coconut oil, Netherlands and United States of America (USA). Pineapple and products were mostly shipped to USA and China.

The expenditures for agricultural imports grew by 3.1 percent in 2019. These shared 13.0 percent in the country's total imports. Wheat (including spelt) and meslin, soyabean oil/cake meal, and rice were the leading agricultural import commodities. Collectively, these accounted for a share of 28.9 percent in the total value of agricultural imports. USA was the major supplier of wheat (including spelt) and meslin and soyabean oil/cake meal, while Vietnam for rice.

The country maintained a negative agricultural trade balance in 2019. While it recorded an agricultural trade surplus with Japan, it continued to record trade deficits with the other major trading partners such as Australia, USA, ASEAN countries and the European Union.

Employment and Wages. The country's labor force in 2019 totaled 44.69 million persons and about 94.9 percent were employed persons. The agriculture sector absorbed 9.72 million persons, contributing 22.9 percent to the national employment. In nominal terms, the daily wage rate of agricultural workers in 2019 averaged PhP 331.10.

Agricultural Support Services. In 2019, the expenditure of the Philippine government in the agriculture and agrarian reform sector reached PhP 133.71 billion, higher by 9.5 percent from the previous year's level. Agricultural expenditures accounted for 3.7 percent of the total national government expenditure.

The total service area provided with irrigation system reached 1.97 million hectares in 2019. Irrigation development was estimated at 63.0 percent.
